2017 Westchester GIS User Group Meeting Workshop

Techniques for Leveraging Survey123 as a Mobile Data Collection Platform

Larry Spraker, VHB, Co-chair at 12:15pm

[Survey123](#) is a powerful, form-centric, mobile data collection application which is completely integrated with ArcGIS Online/Portal. This presentation will review a variety of techniques for leveraging Survey123 in the field, as well as several system architectures and workflow strategies for accessing, reviewing and processing the survey data in back office.
